Dear colleagues, dear friends,

WELCOME TO PARIS!

It is a great pleasure and honour for all members of the French Society of Paediatric Dermatology to welcome you for the 13th Congress of the European Society for Pediatric Dermatology (ESPD), which will be held May 26 to 28, 2016.

The organization of this conference is a great challenge that we are going to conduct in close collaboration with our colleagues involved in the so exciting field of the paediatric dermatology.

Our wish, for this conference, is to offer a scientific programme covering all topics of our specialty, at the highest level. All day, from 8:00 to 6:00 p.m., many enthusiastic and highly qualified specialists will propose to share with you their experience and knowledge. We especially hope that the Congress will be a true moment of encounter and exchange between dermatologists, paediatricians, researchers and paramedics involved so deeply to give the best to our young patients and their families.

The scientific programme will highlight all the basic and clinical research advances in paediatric dermatology, keeping foremost in mind their practical usefulness for patients and their families. A time for reflection will be organized to try to reinforce European networks in different areas.

Our specialty is extremely rich, diverse and stimulating. It is this wealth that we want to live in this conference and, with at the same time, many, human, multi-cultural encounters. “Let those who want to turn their backs on the world! I can understand only in human terms!”

The conference takes place in the «House of Mutuality» in the centre of old Paris!

Social programmes will be designed to allow discovery of all that is the soul of Paris: its monuments, museums, history, music, beautiful places and «petits cafés».

We will all be available to help you make the right choices and to enjoy Paris in this so good time of year in our capital.

We are looking forward to welcoming you in May 2016 to the 13th ESPD Congress!

With best Wishes

Professor Christine Bodemer
Congress President

**“Laissez donc ceux qui veulent tourner le dos au monde. Je ne puis comprendre qu’en termes humains”**, d’après Albert Camus (L’envers et l’Endroit; Le mythe de Sisyphe)
Dear Friends and Colleagues,

It is with great pleasure that I welcome you to the 13th Congress of the European Society for Pediatric Dermatology (ESPD) to be held in Paris, from May 26 to 28, 2016. The French Society for Pediatric Dermatology organized this congress in close collaboration with the ESPD. As the ESPD is devoted to achieving the highest quality of training and academic interactions, the scientific programme will include some of the latest developments in clinical and experimental Pediatric Dermatology.

We are also looking forward to a relaxed social program organized in this magnificent location in the medieval center of Paris to favor social interaction between the participants. Such networking opportunities between pediatric dermatologists, pediatricians, dermatologists, basic scientists, and clinicians are key to promote international exchange and cooperation. We, a society dedicated to patient care, clinical teaching and scientific knowledge, are proud to assist this European collaboration. Together we can provide excellence in patient care through research! So please contribute to our development, become active in our society and join the ESPD if you are not yet a member.

The ESPD is pleased to welcome you to this wonderful venue at the Maison de la Mutualité. We are sure that you will to enjoy three exciting days crammed with the most recent clinic and scientific information in pediatric dermatology. I personally would like to thank the local organizers, the administrative team from MCI, the speakers, the new back office in Prague and last but not least the sponsors, the pharmaceutical companies, and everybody else who has contributed to bring our 13th ESPD Congress to life.

I wish everybody a pleasant and exciting stay in Paris,

Cordially Yours

Prof. Dr. med. Daniel Hohl
President of the ESPD

ABOUT ESPD

The European Society for Pediatric Dermatology (ESPD) was established already in 1983 and held its first Congress in 1984 in Munster, Germany, organized by Rudolf Happle and Heiko Traupe. Our Society travelled a long journey since and is now well established, professional, independent and non-profit scientific society that strives to promote clinical care, interdisciplinary research, education and training. It also serves as a platform favouring international contacts within Europe and worldwide in the field of Pediatric Dermatology.

Our aim is thus to promote at best the interests of the ESPD and to serve the ESPD and its members at the same time. This year’s already the 13th ESPD Congress proves the above to be a correct direction worth maintaining.

Lately, for a more scientific focus of the ESPD’s activities in the field, the EURO-PEDRA (Pediatric Dermatology Research Alliance on the European level) Initiative has been established. We are proud to assist this European collaboration and to boost interactions necessary for the development of clinical and scientific quality in the ESPD. Together we can provide excellence in patient care through research!

Both sensitive and strong, our skin envelops and protects us. It resists the drying wind and the burning sun, it repairs our wounds. It feels our emotions and the benefits of the sun. It is our greatest ally, the protector of our body.

At Bioderma, skin is our passion, our expertise, our model. It is by observing skin’s biology and analysing what it naturally does best, that we found the inspiration to create dermatological skin cares that restore its natural balance to strengthen it.

THE SKIN ITSELF inspired BIODERMA to find biological solutions to preserve the health and beauty of our skin. In a lasting way.

             AMPHITHEATER LEVEL -1

«Les Désaxés», something like the «misfits» in English, with a SAX in it, as a nod in the direction of the instrument they play.

First of all, this band of scatty musicians is an unquestionably sax quartet virtuosi. Prompted by their passion for entertainment and challenges they also became actors, dancers, sounds effect engineers, quite in the same style as the Marx Brothers.

These artists travelled to every corners of the world, getting as much distinction as applauses for their performance.

POSTERS

The poster area is situated on the Level 5.
Plan p. 45

SESSION 1 ROOM: CONSEIL

- Autoimmune and inflammatory systemic diseases: From P001 to P002 + P116
- Blistering disorders: From P003 to P004
- Cases in search of a diagnosis or a treatment: From P005 to P006
- Genodermatoses: From P007 to P029 + P117
- Hair and nail disorders: From P030 to P031
- Inborn errors of metabolism and the skin: From P032 to P034
- Malformation syndromes and mosaic skin conditions: From P035 to P042
- Neonatal and prenatal dermatology: From P043 to P050
- Psoriasis and disorders of cornification: From P051 to P054

SESSION 2 ROOM: PONTOISE

- Acne and facial dermatoses: From P055 to P058
- Atopic dermatitis: From P059 to P070
- Contact dermatitis and allergy: P071
- Drug reactions: P072
- Exanthemas: P073
- Infections and infestations of the skin: From P074 to P083
- Photodermatology: P084
- Therapeutic Education: P085

SESSION 3 ROOM: POISSY

- Auto-inflammatory diseases: From P086 to P088
- Mastocytosis: P090
- Pigmentary disorders: From P091 to P092
- Tumors and neoplasia: From P093 to P103 + P118
- Vascular anomalies: From P104 to P115

The organisers would like to thank Laboratoire BIODERMA for its help with the design and printing of the posters chosen for the European Society for Pediatric Dermatology congress.

POSTERS will also be displayed on computer screens on site located in a dedicated E-POSTERS area on Level 5. Congress participants will be able to view them any time during the entire duration of the meeting.

The best poster will be awarded a prize of 500 euros by the Bioderma foundation. The winner will be announced during the congress closing, held on Saturday 28th May, 13:00, Amphitheater (LEVEL -1)
POSTER SESSION 1 ROOM: CONSEIL

AUTOIMMUNE AND INFLAMMATORY SYSTEMIC DISEASES

P001 | An exceptional case of association of cutaneous Langerhans cell histiocytosis and coeliac disease in a child

P002 | Severe aplastic anemia associated with eosinophilic fasciitis: report of pediatric case.
Victoria M.*, Benoît S., Claire O., Vincent B., Catherine C., Claire G., Sylvie H., Caroline G.-M., Nicolas M., Nathalie C., Gerard M., Jean-Jacques G., Marie-alexie R., Stephanie M. (Marseille, France)

P116 | More than white patches, white halos, white hairs: Vogt-Koyanagi-Harada syndrome
Hamm* H., Reichel A., Meyer-ter-Vehn T., Wobser M., Holl-Weden A. (Würzburg, Germany)

BLISTERING DISORDERS

P003 | Using negative pressure wound treatment in a neonate with epidermolysis bullosa
Schwieger-Briel A.*, Schlueer A.-B., Schiestl C., Theiler M., Weibel L. (Zurich, Switzerland)

P004 | Kaposi varicelliform eruption in a patient with Dowling-Meara epidermolysis bullosa
Abasq-Thomas C., Huguen J.*, Frattag S., Misery L. (Brest, France)

CASES IN SEARCH OF A DIAGNOSIS OR A TREATMENT

P005 | Thalidomide in pediatric resistant recurrent aphthous stomatitis
Chasseuil E., Aubert H., Tessier M.-H., Tiriau S., Poignant S., Barbarot S.* (Nantes, France)

P006 | Pustular psoriasis and palmoplantar keratoderma (PPK) with features of ectodermal dysplasia and mutation in the plakin domain of the desmoplakin gene—a new entity or mere coincidence?
Volc-Platzer B., Gruber R., Rainer G.* (Vienna, Austria)

GENODERMATOSES

P007 | Topical sirolimus as an effective treatment for a deep neurofibroma in a patient with neurofibromatosis type I.
Levy J. M. S., Fiorillo L.* (Edmonton, Canada)

P008 | Natural history of cutaneous changes in pseudoxanthoma elasticum
Navasiolava N., Maréchal-Girault S., Pararajasingam A., Croué A., Letterioti G., Martin L.* (Angers, France)

Morice-Picard F.*, Paya C., Lasseaux E., Labrèze C., Dutkiewicz A.-S., Boralevi F., Arveller B., Taieb A. (Bordeaux, France)

P023 | Compound heterozygous mutations in COL7A1 gene in a girl with unusual phenotype of Dystrophic Epidermolysis Bullosa
Colmant C.*, Sznajer Y., Baecck M., Kamsteeg E.-J., Spanoudi-Kitrimi I., Tennstedt D., Dekeuleneer V. (Brussels, Belgium)

P024 | Evaluation of learning disabilities in segmental neurofibromatosis
Marmottant-Debled E., Chiaverini C.*, Fossoud C., Passeron T., Barbarot S., Lacour J.-P. (Nice, France)

P025 | Acanthosis nigricans, hyponchondroplasia and FGFR3 mutation: four cases and review of the literature

P026 | Two cases of extensive postzygotic mosaicism in epidermolytic ichthyosis closely mimicking a classical form of epidermolytic ichthyosis
Severino M.*, Tourrier E., Chassaing N., Jonca N., Mazereeuw-Hautier J. (Toulouse, France)

P027 | A Case of H Syndrome Presenting with Histopathological Features of Rosai-Dorfman Disease
Powell J.*, Cohen V., Miedzybrodzki B. (Montreal, Canada)

P028 | Dermoscopy of basal cell carcinoma in patients with xeroderma pigmentosum
Radia C.*, Salim G., FZ M. (Fez, Morocco)

P029 | Pediatric pilomatricomas in Kabuki syndrome
Marcoux D.*, Schreiber A., Coulombe J., Bernier F.-E. (Québec, Canada)

HAIR AND NAIL DISORDERS

P030 | Halo scalp ring in three children
Garritsen F.*, de Graaf M., Toonstra J. (Utrecht, Netherlands)

P031 | Anterior cervical hypertrichosis: Report of 2 cases
Kieselova K.*, Santiago F., Guiote V., Henrique M. (Leiria, Portugal)

P117 | Clinical Features and Treatment Outcome in Nine Patients with Netherton Syndrome and Influence of Immunoglobulin on Hair Growth
INBORN ERRORS OF METABOLISM AND THE SKIN

P032 | When Deficits Result in Excess: The Irony of Inborn Errors of Metabolism — A 1-year-old female with Maple Syrup Urine Disease presenting with Acrodermatitis Enteropathica-like lesions
Abad R. M. R.*, Lazo-Dizon J. P. (Manila, Philippines)

P033 | Skin rash in a GLUT1 deficient adolescent
Norrenberg S.*, Bonafé L., Hohl D., Christen-Zäch S. (Lausanne, Switzerland)

P034 | Acrodermatitis enteropathica-like syndrome
Kazandjieva J.*, Guleva D., Sonya M., Nikolova A. (Sofia, Bulgaria)

MALFORMATION SYNDROMES AND MOSAIC SKIN CONDITIONS

P035 | Hallermann- Streiff Syndrome: a new case and difficulties in management
Fatma Zohra Z., fatma zohra D., ryma O., sidi dris A., Bakar B.* (ALGIERS, Algeria)

P036 | Mosaic ectodermal dysplasia-skin fragility syndrome: first reported case

A hospitality desk will be located in the Welcome Area during the event on 26th and 27th May for any reservations.
GENERAL INFORMATION & ACCESS

VISIT PARIS

Paris is a dynamic and renowned cultural capital, always at the forefront of trends and new ideas. But it is also home to tradition and history. No matter what you are most interested in, you will always find it in the «City of Light»; something exciting to experience and to match your tastes and expectations! Your visit will be an excellent opportunity to discover some of the most outstanding artistic and historic highlights of Paris and its surrounding areas.

ENJOY PARIS!

THE VENUE
MAISON DE LA MUTUALITÉ

Inaugurated in 1931 by the French President Paul Doumer, the Maison de la Mutualité was one of the emblematic centres of the capital’s social and cultural life. The building is a magnificent example of Art Deco architecture and was fully renovated in 2011 by Jean-Michel Wilmotte, who restored the place to its former glory while adding sober, modern touches to the interior design. Today, the Maison de la Mutualité has once again become a major venue for events on the Left Bank.

LANGUAGE
The official language of the congress is English.

Simultaneous translation from English into French in the Amphitheater.

CLIMATE AND CLOTHING
The month of May is characterized by rising daily high temperatures, with daily highs increasing from 17°C to 21°C over the course of the month.

CURRENCY EXCHANGE
ALL RATES given in the programme are in EUROS: €
ELECTRICITY
Electricity used in France is 220 Volts; its frequency is 50 Hz and the plugs have two male contact points. Plan to bring a transformer for your electrical or electronic equipment using different voltage.

EXHIBITION & SPONSORSHIP
For exhibition or sponsorship, you can contact any time the Congress Office: exhibition@espd2016.com

INSURANCE & LIABILITY
The Organisers will accept no liability for personal injuries sustained by or for loss or damage to property belonging to Congress participants, either during or as a result of the Congress or during all events.
Participants are strongly recommended to seek insurance coverage for health and accident, lost luggage and trip cancellation.

LUNCHES
Lunches are NOT included in the registration fees but sandwiches and snacks can be purchased within the premises of the Maison de la Mutualité and its surroundings.

TELEPHONES
For international calls to France, dial the international code followed by 33 and the correspondent's number without the “0”.
